

Fleet Maintenance Report

Generated On: 2026-04-19 22:32:24

1. Health Summary

Vehicle shows low mileage and no brake wear indicators; based on brake pad replacement rule (30,000-50,000 km), pads are not due.

2. Risk Assessment

Status: LOW

3. Recommended Actions

- Schedule routine service
- Inspect brake pads during next service
- Monitor mileage for brake wear
- Update maintenance log

4. Service Timeline

Immediate (0-3 days)

5. AI Confidence Score

Probability Score: 77.5%

6. Knowledge Sources

Knowledge base

Disclaimer: Recommendations are based on available rules and vehicle data; consult a qualified technician for detailed assessment.
